a. Education and engagement with learners

- The setting will establish and embed a progressive online safety curriculum to raise awareness and promote safe and responsible internet use amongst learners by:
 - Ensuring education regarding safe and responsible use precedes internet access.
 - Including online safety in Personal, Social, Health and Economic (PSHE), Relationships and Sex Education (RSE) and computing programmes of study. Online safety is also incorporated into our Cornerstones Curriculum.
 - Reinforcing online safety messages whenever technology or the internet is in use.
 - Educating learners in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
 - Teaching learners to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.
- The setting will support learners to read and understand the acceptable use policies in a way which suits their age and ability by:
 - Displaying acceptable use posters in all rooms with internet access (See Computing Action Plan).
 - Informing learners that network and internet use will be monitored for safety and security purposes and in accordance with legislation.
 - Providing online safety education and training as part of the transition programme across the key stages and when moving between establishments.
 - Seeking learner voice when writing and developing online safety policies and practices, including curriculum development and implementation. This includes collecting feedback from our Rights Respecting School Council.
 - Using support, such as external visitors, where appropriate, to complement and support our internal online safety education approaches.

b. Vulnerable Learners

- Delves Lane Primary School recognises that some learners are more vulnerable online due to a range of factors. This may include, but is not limited to, children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an additional language (EAL) and children experiencing trauma or loss.
- Delves Lane Primary School will ensure that differentiated and ability appropriate online safety education, access and support is provided to vulnerable learners. **We will ensure that**

appropriate support is provided for vulnerable learners through the SEND Policy, Support Plans, etc. as required.

- When implementing an appropriate online safety policy and curriculum, Delves Lane Primary School will seek input from specialist staff as appropriate, including the SENCO, Child in Care Designated Teacher. **Mrs A Shaw is SEN Coordinator, Mrs R Woods is LAC Designated Lead.**

We will:

- Provide and discuss the online safety policy and procedures with all members of staff as part of induction.
- Provide up-to-date and appropriate online safety training for all staff on a regular basis, with at least annual updates.
 - **As part of existing safeguarding and child protection training/updates**
 - This will cover the potential risks posed to learners (Content, Contact and Conduct), as well as our professional practice expectations.
- Recognise the expertise staff build by undertaking safeguarding training and managing safeguarding concerns and provide opportunities for staff to contribute to and shape online safety policies and procedures.
- Make staff aware that our IT systems are monitored, and that activity can be traced to individual users; staff will be reminded to behave professionally and in accordance with our policies when accessing our systems and devices.
- Make staff aware that their online conduct outside of the setting, including personal use of social media, could have an impact on their professional role and reputation.
- Highlight useful educational resources and tools which staff should use, according to the age and ability of the learners.
- Ensure all members of staff are aware of the procedures to follow regarding online safety concerns affecting learners, colleagues or other members of the community.

 - This will include offering specific online safety awareness training and highlighting online safety at other events such as parent evenings, transition events, fetes and sports days.
 - Drawing their attention to the online safety policy and expectations in newsletters, letters, our prospectus and on our website.
 - Requesting that they read online safety information as part of joining our community, for example, within our home school agreement.
 - Requiring them to read our acceptable use policies and discuss the implications with their children.

6. Reducing Online Risks

- Delves Lane Primary School recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace.
- We will:
 - Regularly review the methods used to identify, assess and minimise online risks.
 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in the setting is permitted.
 - Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
 - Due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our computers or devices.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence to members of the community. This is clearly outlined in our acceptable use policies and highlighted through a variety of education and training approaches.

7. Safer Use of Technology

a. Classroom Use

- Delves Lane Primary School uses a wide range of technology. This includes access to: IPAD, laptop and desktop computers, IPODs
 - Computers, laptops and other digital devices
 - Internet which may include search engines and educational websites
 - Learning platform/intranet
 - Email
 - Games consoles and other games-based technologies
 - Digital cameras, web cams and video cameras.
- All setting owned devices will be used in accordance with our acceptable use policies and with appropriate safety and security measures in place.
 - *Ipads are controlled using MDM (Mobile Device Management) software. This limits children's access to critical device settings, installation of unwanted apps and capacity to delete key apps.*
 - *Ipads are subject to the universal pupil account settings for filtering of internet access. Staff working with the children will monitor their use of the technology closely.*
 - *Laptop access is managed through individual logins for every pupil. Pupil accounts have limited access to device settings and are subject to a more limiting internet filter to ensure that they only access appropriate content.*
 - *Smoothwall filtering enables the DSL or deputy to see any attempts by devices or users to access content which categorises as risky. Attempts are logged to an ipad device or an individual username at the time enabling effective monitoring for safeguarding purposes.*
 - *Staff have access at all times to pupils' work folders to enable assessment and monitoring of content that pupils create.*
- Members of staff will always evaluate websites, tools and apps fully before use in the classroom or recommending for use at home.
- The setting will use age appropriate search tools following an informed risk assessment, to identify which tool best suits the needs of our community.
 - The Smoothwall filtering system used in most Durham schools ensures that when using Google it is automatically set to safe search. This reduces but does not eliminate the risk of links to inappropriate content.

- We will ensure that the use of internet-derived materials, by staff and learners, complies with copyright law and acknowledge the source of information.
- Supervision of learners will be appropriate to their age and ability.
 - **Early Years Foundation Stage and Key Stage 1**
 - Access to the internet will be by adult demonstration, with occasional directly supervised access to specific and approved online materials, which supports the learning outcomes planned for the learners' age and ability.
 - **Key Stage 2**
 - Learners will use age-appropriate search engines and online tools.
 - Learners will be directed by the teacher to online materials and resources which support the learning outcomes planned for the learners' age and ability.
 - **Learners in residential provision**
 - We will balance children's ability to take part in age appropriate peer activities online, with the need to detect and prevent abuse, bullying or unsafe practice by children in accordance with the national minimum standards (NMS).

b. Managing Internet Access

All staff, learners and visitors will read and sign an acceptable use policy before being given access to our computer system, IT resources or internet. (See Computing Action Plan)

c. Filtering and Monitoring

Note: A guide for education settings about establishing 'appropriate levels' of filtering and monitoring can be found at: <https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>

i Decision Making

- *Delves Lane Primary School* governors and leaders have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learners' exposure to online risks.
- The governors and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

ii Filtering

- Education broadband connectivity is provided through **Durham County Council**
- We use **Smoothwall** which blocks sites which can be categorised as: pornography, racial hatred, terrorism, extremism, gaming, gambling, social media, chat rooms and sites of an

illegal nature. Should any stand-alone risks be raised by ICTSS, these will be added accordingly. Schools should also be aware of the filtering detecting other safeguarding issues, such as self-harm, serious violent crime or issues with county lines grooming.

- The filtering system blocks all sites on the [Internet Watch Foundation](#) (IWF) list.
 - All school devices should be connected to a filtered feed. If a school device needs access to additional content, for instance to manage official social media, the filter settings for that device or user should be modified to allow access to that content.
 - We work with **ICTSS** to ensure that our filtering policy is continually reviewed.
-
- If learners discover unsuitable sites, they will be required to:
 - **Procedure:**
 - **If on a laptop, close the screen lid and tell a member of staff immediately.**
 - **If on an ipad, close the case and press the lock-screen button. Tell a member of staff immediately.**
 - The member of staff will report the concern (including the URL of the site if possible) to the DSL (or deputy) and/or technical staff.
 - The breach will be recorded and escalated as appropriate.
 - Parents/carers will be informed of filtering breaches involving their child.
 - Any material believed to be illegal will be reported immediately to the appropriate agencies, such as the UK Safer Internet Centre, Durham Police or CEOP.

iii **Monitoring**

- We will appropriately monitor internet use on all setting owned or provided internet enabled devices. This is achieved by:
 - ***This will be achieved by physical monitoring (supervision) and digital monitoring of internet and web access (via SMOOTHWALL which provides both active and proactive technology monitoring services).***
 - If a concern is identified via monitoring approaches:
 - ***The DSL or deputy will respond in line with the child protection policy.***
- All users will be informed that use of our systems can be monitored and that all monitoring will be in line with data protection, human rights and privacy legislation.

d. **Managing Personal Data Online**

- Personal data will be recorded, processed, transferred and made available online in accordance with General Data Protection Regulations and Data Protection legislation.
