What we will be learning:

Whilst in school, we will be focusing on various transition activities to prepare the children for their move to secondary school. Our home learning program will continue on the other days of the week which will continue to focus on the core curriculum areas i.e. Maths, English and Science. Please see the weekly home learning timetable for Year 6 which can be found on the school website as usual.

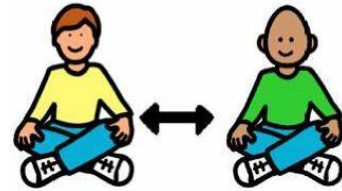

## When you come back to school..

The school day might feel a little bit different for a while. We might not go to the hall, visit other parts of the building or play with our friends from other classes.

...you have become an expert at washing your hands now so we just need to keep this up!  
**Wash, wash, wash!**

...we will try to remain at a **social distance** of 2m wherever possible and talk to children about this but we **cannot guarantee** that this will always be possible. We will play together but will try not to get too close to our friends.

...we will eat our **lunch** together in our own classrooms at our own table! Then we can play outside in our own outdoor area.

For now, our room will be like our own little bubble. We can learn, have fun and care about each other inside our bubble.
